PREVENTED PLANT

- Claims must be reported within 72 hours after planting is no longer deemed feasible during late planting period.
- Prevented plant acres must be listed on your FSA-578 forms.

REPLANT

- **Claim must be turned in prior to any replant activity.**
- 20 acres or 20% of the planted acres in the unit, whichever is less.
- AIP may determine if it is practical to replant up to the 10th day after the final plant date.
- No replant payment will be made on acreage initially planted prior to the earliest planting date.

CLAIMS

If you think you may have a loss, you must notify your AgQuest Agent:

- Within 72 hours of discovery, if a loss is anticipated on any unit.
- No later than 15 days after earliest of the following:
 - Damage to the insured crop on that unit
 - Harvest of the unit (within 15 days after harvest).

If you intend to commingle old grain with new grain, it requires bin measurement by an adjuster.

REMINDER: A timely notice of loss must be reported for any loss, including revenue losses. If you expect a revenue loss you must submit a notice of loss not later than 45 days after the date the harvest price is released. For more information, please call your local agent.
